Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative indicated that the instant application is build upon a well-know K-mean clustering algorithms with some improvements, however, he also indicates that since he is a new attorney to work on the instant invention, he needs to check back with his client to define the novelties of the invention and will amend the claims with more details concerning the novelties of the invention. The examiner indicates that since the instant application is a timed case, thus, if there is any amendment need to be filed, the representative should do it timely.
